What do your franchise fees get you?

Our brand. Our reputation. Access to our Accelerated Start Up Program. Your own Business Coach. Our marketing and advertising. Ongoing support, however and whatever you need. Training in how to charge an hourly rate almost double that of others in the industry.

Access to a system designed to build successful businesses – all you have to do, is follow it!

Our Philosophy

Build a network of skilled business owners who are in control of their own financial outcomes. (just looking for leads, and don't really want ownership or control of your business or what you earn...? we might not be the best option for you)

LEADS

We market your business. You market your business. You can expect anywhere up to 15 leads per week from us. If you want more... we teach you how to generate them yourself... so you're not waiting on us for the next lead... you're in control...

INITIAL TRAINING

3 days face-to-face business management training

4 days face-to-face practical training

COMPETITION

There's so much competition, how will I stand out? Standing out is simple... because the bar is pretty low. Great communication, great presentation, professional branding, great follow-up, promptness and showing up on-time... standing out is just getting these basics right... consistently.

Our system is design to set you up to stand out from the beginning.
